Forex Risk Disclosure:

The National Futures Association (NFA) and CFTC (Commodity Futures Trading Commission), the regulatory agencies for the forex and futures market in the United States, require that customers be informed about potential risks in the forex market. If you don't understand any of the information provided on this page, please contact us or seek advice from an independent financial advisor.

Risk Associated with Forex Trading Off-exchange foreign currency trading on margin carries a high level of risk and may not be suitable for all investors. The high degree of leverage can work against you as well as for you. Before deciding to invest in foreign exchange you should carefully consider your investment objectives, level of experience, and risk appetite.

The possibility exists that you could sustain a loss of some or all of your initial investment and, therefore, you should not invest money that you cannot afford to lose. You should be aware of all the risks associated with off-exchange foreign currency trading and seek advice from an independent financial advisor if you have any doubts.

TheInnerCircleTrader.com Market Opinions:

Any opinions, news, research, analyses, prices, or other information contained on this website is provided as general market commentary, and does not constitute investment advice. <http://www.TheInnerCircleTrader.com>, Michael J. Huddleston, aka "ICT" and or The Inner Circle Trader will not accept liability for any loss or damage, including without limitation to, any loss of profit, which may arise directly or indirectly from use of or reliance on such information.

Accuracy of Information The content on this website is subject to change at any time without notice, and is provided for the sole purpose of assisting traders to make independent investment decisions. <http://www.TheInnerCircleTrader.com> has taken reasonable measures to ensure the accuracy of the information on the website, however, does not guarantee its accuracy, and will not accept liability for any loss or damage which may arise directly or indirectly from the content or your inability to access the website, for any delay in or failure of the transmission or the receipt of any instruction or notifications sent through this website.

Government Required Risk Disclaimer and Disclosure Statement:

CFTC RULE 4.41 - HYPOTHETICAL OR SIMULATED PERFORMANCE RESULTS HAVE CERTAIN LIMITATIONS. UNLIKE AN ACTUAL PERFORMANCE RECORD, SIMULATED RESULTS DO NOT REPRESENT ACTUAL TRADING. ALSO, SINCE THE TRADES HAVE NOT BEEN EXECUTED, THE RESULTS MAY HAVE UNDER-OR-OVER COMPENSATED FOR THE IMPACT, IF ANY, OF CERTAIN MARKET FACTORS, SUCH AS LACK OF LIQUIDITY. SIMULATED TRADING PROGRAMS IN GENERAL ARE ALSO SUBJECT TO THE FACT THAT THEY ARE DESIGNED WITH THE BENEFIT OF HINDSIGHT. NO REPRESENTATION IS BEING MADE THAT ANY ACCOUNT WILL OR IS LIKELY TO ACHIEVE PROFIT OR LOSSES SIMILAR TO THOSE SHOWN.

Trading performance displayed herein is hypothetical. Hypothetical performance results have many inherent limitations, some of which are described below. No representation is being made that any account will or is likely to achieve profits or losses similar to those shown. In fact, there are frequently sharp differences between hypothetical performance results and the actual results subsequently achieved by any particular trading program. One of the limitations of hypothetical performance trading results is that they are generally prepared with the benefit of hindsight. In addition, hypothetical trading does not involve financial risk, and no hypothetical trading record can completely account for the impact of financial risk in actual trading. For example, the ability to withstand losses or to adhere to a particular trading program in spite of trading losses are material points which can also adversely affect actual trading results. There are numerous other factors related to the markets in general or to the implementation of any specific trading program which cannot be fully accounted for in the preparation of hypothetical performance results and all of which can adversely affect actual trading results.

U.S. Government Required Disclaimer - Commodity Futures Trading Commission Futures and Options trading has large potential rewards, but also large potential risk. You must be aware of the risks and be willing to accept them in order to invest in the futures and options markets. Don't trade with money you can't afford to lose. This is neither a solicitation nor an offer to Buy/Sell futures or options. No representation is being made that any account will or is likely to achieve profits or losses similar to those discussed on this web site. The past performance of any trading system or methodology is not necessarily indicative of future results. Trade at your own risk. The information provided here is of the nature of a general comment only and neither purports nor intends to be, specific trading advice. It has been prepared without regard to any particular person's investment objectives, financial situation and particular needs. Information should not be considered as an offer or enticement to buy, sell or trade.

You should seek appropriate advice from your broker, or licensed investment advisor, before taking any action. Past performance does not guarantee future results. Simulated performance results contain inherent limitations. Unlike actual performance records the results may under or over compensate for such factors such as lack of liquidity. No representation is being made that any account will or is likely to achieve profits or losses to those shown. The risk of loss in trading can be substantial. You should therefore carefully consider whether such trading is suitable for you in light of your financial condition.

If you purchase or sell Equities, Futures, Currencies or Options you may sustain a total loss of the initial margin funds and any additional funds that you deposit with your broker to establish or maintain your position. If the market moves against your position, you may be called upon by your broker to deposit a substantial amount of additional margin funds, on short notice in order to maintain your position. If you do not provide the required funds within the prescribed time, your position may be liquidated at a loss, and you may be liable for any resulting deficit in your account.

Under certain market conditions, you may find it difficult or impossible to liquidate a position. This can occur, for example, when the market makes a "limit move." The placement of contingent orders by you, such as a "stop-loss" or "stop-limit" order, will not necessarily limit your losses to the intended amounts, since market conditions may make it impossible to execute such orders. By viewing any <http://www.TheInnerCircleTrader.com> text, audio, visual commentary, video or presentation, you acknowledge and accept that all trading decisions are your own sole responsibility, and the author, Michael J. Huddleston and anybody associated with <http://www.TheInnerCircleTrader.com> cannot be held responsible for any losses that are incurred as a result.

ICT Monthly Mentorship

Short Term Trading Model

[Combining HTF Monthly & Weekly Ranges]

Short Term Trading

The practice of Trading a duration of one week to a few days.
Using both the Monthly and Weekly charts to frame the setups.
We trade in the direction of the present or next week's range.
Understanding of the Weekly Range is essential.
The Short Term Model can be both Trend or Range based.
Trades that are clear to see forming are the goal – not forced.
Short Term Trading is the highest probability discipline.
Frequent setups & consistency provides a plethora of trades.

ICT Monthly Mentorship

Short Term Trading Model

[Combining HTF Monthly & Weekly Ranges]

The PD Array Matrix:

When defining the market conditions we think in terms of where the Price can reach for. Both in a rally and in a decline. This is the foundation to determining likely market direction.

The PD Arrays that have been traded to or executed on most recently indicate the opposite PD Array spectrum will be reached for.

If Discount Arrays have provided Support for Price – probabilities increase that the Premium Arrays will be sought above the market price.

If Premium Arrays have provided Resistance for Price – probabilities increase that Discount Arrays will be sought below the market price.

Short Term Trading Model

[Combining HTF Monthly & Weekly Ranges]

The General Concept Revisited:

- **Market Is Poised To Trade Higher On HTF**
 1. Seasonal Tendency
 2. Interest Rate Driven
 3. Commitment Of Traders
 4. Intermarket Analysis Supports Bullishness
- **Market Rallies Higher Then Retraces Mon - Wed**
- **Market Expands Up To Higher Highs**

ICT Monthly Mentorship

Short Term Trading Model

[Combining HTF Monthly & Weekly Ranges]

The General Concept Revisited:

- **Market Is Poised To Trade Lower On HTF**
 1. Seasonal Tendency
 2. Interest Rate Driven
 3. Commitment Of Traders
 4. Intermarket Analysis Supports Bearishness
- **Market Declines Lower Then Retraces Mon - Wed**
- **Market Expands Down To Lower Lows**

ICT Monthly Mentorship

Short Term Trading Model

[Combining HTF Monthly & Weekly Ranges]

Monthly Ranges

Price is Fractal and HTF Analysis benefits us as a result.

We note the High and Low on every Monthly Candle.

Note the present Range in Terms of Premium or Discount.

Consider where Price on the Monthly will or could draw to.

There is generally 4 Weekly Candles in every Monthly Candle.

Each week we study where the Monthly will likely trade next.

Using Monthly Ranges we frame trades on the Weekly Range.

ICT Monthly Mentorship

Short Term Trading Model

[Combining HTF Monthly & Weekly Ranges]

Weekly Ranges

Price is Fractal and Monthly Analysis builds on the Weekly.
We note the High and Low on every Weekly Candle.
Note the present Range in Terms of Premium or Discount.
Consider where Price on the Weekly will or could draw to.
There is generally 5 Daily Candles in every Weekly Candle.
Each week we study how the Weekly trades in Monthly Range.
Using Weekly Ranges we frame trades on the Daily Chart.

Short Term Trading Model

[Defining The Weekly Range Profiles]

Classic Tuesday Low Of Week

The Profile: Bullish

Manipulation: Hovers above a HTF Discount Array Monday then drops into the HTF Discount Array on Tuesday to form the Low of the Week.

How To Anticipate: Know the HTF Discount Arrays and when the market fails to drop into that Array – odds are Tuesday will likely see the drive lower Tuesday London or New York Session.

Monday Tuesday Wednesday Thursday Friday

ICT Monthly Mentorship

Short Term Trading Model

[Defining The Weekly Range Profiles]

Classic Tuesday High Of Week

The Profile: Bearish

Manipulation: Hovers below a HTF Premium Array Monday then rises into the HTF Premium Array on Tuesday to form the High of the Week.

How To Anticipate: Know the HTF Premium Arrays and when the market fails to rise into that Array – odds are Tuesday will likely see the drive higher Tuesday London or New York Session.

Monday Tuesday Wednesday Thursday Friday

ICT Monthly Mentorship

Short Term Trading Model

[Defining The Weekly Range Profiles]

Wednesday Low Of Week

The Profile: Bullish

Manipulation: Hovers above a HTF Discount Array Monday & Tuesday then drops into the HTF Discount Array on Wednesday to form the Low of the Week.

How To Anticipate: Know the HTF Discount Arrays and when the market fails to drop into that Array – odds are Wednesday will likely see the drive lower Wednesday London or New York Session. Monday and Tuesday can be down days as well and form this Profile.

Monday Tuesday Wednesday Thursday Friday

ICT Monthly Mentorship

Short Term Trading Model

[Defining The Weekly Range Profiles]

Wednesday High Of Week

The Profile: Bearish

Manipulation: Hovers below a HTF Premium Array Monday & Tuesday then rises into the HTF Premium Array on Wednesday to form the High of the Week.

How To Anticipate: Know the HTF Premium Arrays and when the market fails to rise into that Array – odds are Wednesday will likely see the drive higher Wednesday London or New York Session. Monday and Tuesday can be up days as well and form this Profile.

Monday Tuesday Wednesday Thursday Friday

ICT Monthly Mentorship

Short Term Trading Model

[Defining The Weekly Range Profiles]

Consolidation Thursday Reversal

The Profile: Bullish

Manipulation: Consolidates Monday through Wednesday then runs the intra-week Low and rejects it forming a market reversal.

How To Anticipate: Know the HTF Discount Arrays and when the market fails to drop into that Array – odds are Thursday will likely see the drive lower Thursday on a Market Driver News or Rate release late New York Session around 2:00 pm EST.

Monday Tuesday Wednesday Thursday Friday

ICT Monthly Mentorship

Short Term Trading Model

[Defining The Weekly Range Profiles]

Consolidation Thursday Reversal

The Profile: Bearish

Manipulation: Consolidates Monday through Wednesday then runs the intra-week High and rejects it forming a market reversal.

How To Anticipate: Know the HTF Premium Arrays and when the market fails to rise into that Array – odds are Thursday will likely see the drive higher Thursday on a Market Driver News or Rate release late New York Session around 2:00 pm EST.

Monday Tuesday Wednesday Thursday Friday

ICT Monthly Mentorship

Short Term Trading Model

[Defining The Weekly Range Profiles]

Consolidation Midweek Rally

The Profile: Bullish

Manipulation: Consolidates Monday through Wednesday then runs the intra-week High and expands higher into Friday.

How To Anticipate: When the market is Bullish and has yet to run to the Premium Array on the HTF timeframes and it has recently rallied from a Discount Array and simply paused without any Bearish Reversal Price action. Indicating Price is about to expand higher for the Premium Array.

Monday Tuesday Wednesday Thursday Friday

ICT Monthly Mentorship

Short Term Trading Model

[Defining The Weekly Range Profiles]

Consolidation Midweek Decline

The Profile: Bearish

Manipulation: Consolidates Monday through Wednesday then runs the intra-week Low and expands lower into Friday.

How To Anticipate: When the market is Bearish and has yet to run to the Discount Array on the HTF timeframes and it has recently declined from a Premium Array and simply paused without any Bullish Reversal Price action. Indicating Price is about to expand lower for the Discount Array.

Monday Tuesday Wednesday Thursday Friday

ICT Monthly Mentorship

Short Term Trading Model

[Defining The Weekly Range Profiles]

Seek & Destroy Bullish Friday

The Profile: Neutral – Low Probability

Manipulation: Consolidates Monday through Thursday – running shallow Stops under and above the intra-week highs - then runs the intra-week High and expands higher into Friday.

How To Anticipate: When the market is awaiting Interest Rate Announcements or Non-Farm Payroll can create this Profile in the Summer months of July and August. Better to avoid trading these conditions.

Monday Tuesday Wednesday Thursday Friday

ICT Monthly Mentorship

Short Term Trading Model

[Defining The Weekly Range Profiles]

Seek & Destroy Bearish Friday

[The One Shot One Kill Trading Model]

One Shot One Kill Setups Require:

- ◆ Knowing Macro conditions and all the January content lessons.
- ◆ IPDA Data Ranges & PD Array Matrix concept.
- ◆ The understanding of Position Trading Model concepts.
- ◆ The understanding of Swing Trading Model concepts.
- ◆ The Short Term Trading tutorials on the ICT website.
- ◆ The Power Of 3 Concept applied to Weekly Candles or Ranges.
- ◆ The Intraday concepts from ICT Day Trading Model.
- ◆ Day of Week Concept – High or Low Forms Mon-Wed 70% time.
- ◆ Using Fib's for targeting & understanding the correct Price points.
- ◆ Time of Day or ICT Killzones for entries on OSOK setups.
- ◆ Seasonal Tendencies that may impact or frame directional setups.
- ◆ COT Analysis and Commercial Hedging Programs.

[The One Shot One Kill Trading Model]

One Shot One Kill Trade Procedure:

- ◇ Determine the current or potential next Quarterly Shift.
- ◇ Identify the HTF PD Arrays in the IPDA Data Ranges.
- ◇ Refer to the Interest Rate Differentials & Market Profile of Rates.
- ◇ Scout Seasonals throughout the calendar year that offer odds.
- ◇ Swing Analysis on the Price Action on HTF down to 60 min.
- ◇ Anticipate specific Weekly Profiles that may unfold.
- ◇ Prepare for Market Makers Manipulation respective to the profile.
- ◇ Determine Premium and Discount ranges for Price Action.
- ◇ Wait for Volatility to signal a high odds of large ranges.
- ◇ Refer to COT and Open Interest to confirm Smart Money action.
- ◇ Frame a Low Resistance Liquidity Run with opposing PD Arrays.
- ◇ Use Fib's to converge with opposing PD Arrays and Time & Price.
- ◇ Confirm Trade Setups with Intermarket Analysis
